Sports Day 2016

Parents mentioned that it would be good if there were arrangements made for extra parking on sports day.

The staff would park in the side field and the shop and parish council will be contacted to see if the park field and shop car park could be used.

Parents would be informed about this through the school newsletter.

Parent also asked if the activities in sports day could last a similar length of time so there is not much waiting time during the carousel activities. The school would take this into consideration when deciding on the activities to choose.

They also would like the competitive races at the end to stay as they felt that some competitive races with medal/stickers for places is important.

Future parent workshop ideas 2016/17

Parents asked is there could be workshop focussing on the new terminology and calculation operations in the Maths curriculum. They mentioned about 'chunking', 'column addition' and 'bus stop method'.

Lisa Purcell (Federation Maths leader) will lead a Maths workshop for parent in Tem 1 2016.
