### Guidance

#### Using catch-up funding

Mainstream schools will get £80 for each pupil in from reception to year 11 inclusive.

Schools should use this funding for specific activities to support their pupils to catch up for lost teaching over the previous months, in line with the curriculum expectations for the next academic year in [actions for schools during the coronavirus outbreak](#).

While schools can use their funding in a way that suits their cohort and circumstances, they are expected to use this funding for specific activities which will help pupils catch up on missed education.

To support schools to make the best use of this funding, the Education Endowment Foundation (EEF) has published a [coronavirus \(COVID-19\) support guide for schools](#) with evidence-based approaches to catch up for all students.

To support schools to implement their catch-up plans effectively, EEF has published the [school planning guide: 2020 to 2021](#). This will provide further guidance on how schools should implement catch-up strategies and supporting case studies to highlight effective practice

#### Accountability: school leaders and governors

School leaders must be able to show they are using the funding to resume teaching a normal curriculum as quickly as possible following partial or full school closure.

Governors and trustees should scrutinise schools' approaches to catch-up from September 2020, including their plans for and use of catch-up funding. This should include consideration of whether schools are spending this funding in line with their catch-up priorities, and ensuring appropriate transparency for parents.
