Let's Celebrate!

We have a very exciting term ahead in EYFS! Our new topic is 'Let's Celebrate!', where we will be exploring a variety of celebrations and festivals from around the world. These will include Bonfire Night, Remembrance Day, Diwali, the Mid-Autumn Festival and, of course, Christmas in England and across the world!

We have lots of exciting activities planned, including designing our own fireworks, taking part in the Remembrance service, creating clay diya lamps, making and trying traditional Indian food and designing our own lanterns. As we approach Christmas, we will also be preparing for our Nativity performance and enjoying lots of festive activities!

Literacy – Phonics and Early Writing

By the end of Term 2, we will have learnt all the letters of the alphabet, explored lots of digraphs and completed our learning of the Phase 2 sounds. We will be putting these sounds into practice, developing the children's confidence in both reading and writing. We will be working towards writing simple CVC words (such as cat, dog and sun) and, where appropriate, beginning to write short captions independently.

Maths

This term, we will be exploring shape and measure while continuing to develop our confidence with numbers to 5. We will be practising recognising numerals, subitising (recognising amounts without counting) and exploring how numbers can be made up of smaller amounts.

We are looking forward to a wonderful term filled with exciting experiences, creativity and lots of celebrations. Thank you for your continued support!
