13 October 2021

Dear Parent / Carer,

SIMS Parent App - Student Data

Following on from our letter sent on 13 October 2021, Schools ICT have now updated our systems for Parent App.

Parent App is a convenient way for you to access, review and request changes to the data held on you and your child/ren direct from your phone. You will be able to access the SIMS Parent App and website at your own convenience via smartphone, tablet or PC – anytime, anywhere!

What will you find in SIMS Parent?

- Access to update your contact details, so we always have the most up-to-date information in case of an emergency
- If you have more than one child at school, you will have access to this information for all your children from the same app

Getting started with the SIMS Parent

We will be sending activation emails this week.

(The email will be sent from noreply@capita.co.uk).

Simply click on the link from a tablet, PC or smartphone to activate the account.

From a smartphone or tablet please download the app from the Google Play or Apple App store. Search for SIMS Parent.

From a PC or Windows phone, please login online at www.sims-parent.co.uk

You will be able to login using your normal Facebook, Twitter, Google or Microsoft username and password.

Please note, an invitation to register for the SIMS Parent App will only be sent if the criteria below has been met;

- Priority contact 1 or 2 for your child
- Have Parental Responsibility for your child
- Have no Court Order in place for your child

Once registered, you will be able to add and edit emergency contacts for your own child via the secure app or website.

If you have any questions at all, please do not hesitate to contact the school office.

Yours sincerely
