

Reading	We will be reviewing and embedding phases 2 and 3 and beginning work on phase 4 phonics. Phase 4 phonics aims to ensure that all children can give the sound when shown any of the phase 2 and 3 graphemes. We will be learning to blend and read words containing two adjacent consonants and we will be learning to segment and spell these words. We will also be embedding our quick recognition of a range of tricky words.
Writing	The children will be continuing to practising their letter formation. Please help your child to form letters correctly, as they write. Please encourage your child to write in every possible context – shopping lists, cards to grandparents etc. It is important that they are encouraged to write in a phonetically plausible way as this will enable them to be independent when writing.
Maths	The most important thing for children in their reception year is that they can read, write, order and recognise numbers to 10. Please encourage the children to count their toys when playing and try to write and use numbers when appropriate at home. We will also be looking out for the numbers and symbols that help us know what a number is without counting – this is called subitising! We will continue to learn our teen numbers and to embed our understanding of number patterns and bonds.

<ul><li>should be filled with water only. The children are provided with a free fruit snack at school.</li><li>Can the children please always have a coat in school especially for wet and rainy days- we still play outside!</li></ul>	Ke	y questions to ask your child at home:
